Molecular Robotics Symposium

10:00~15:45, Friday, September 26, 2014

Shiran Hall, Kyoto University

Panel Discussion

Molecular Robotics: Contributions to Science, Technology and Society

Moderator : Satoshi Murata (Tohoku Univ.)

Panelists:

Shawn Douglas (UCSF)

Nadrian C. Seeman (New York Univ.)

Masami Hagiya (Univ. of Tokyo)

Akihiko Konagaya (TITECH)

Satoshi Kobayashi (UEC)

Hirohide Saito (Kyoto Univ.)

(13:30~15:30)

Special Talks

Nadrian C. Seeman
(New York Univ.)

Molecular Machines Made from DNA (10:10~)

Hiroyuki Asanuma
(Nagoya Univ.)

Light-powered DNA nanomachine carrying azobenzenes as molecular photon-engine (11:10~)
